Sustainable Energy Association of Singapore
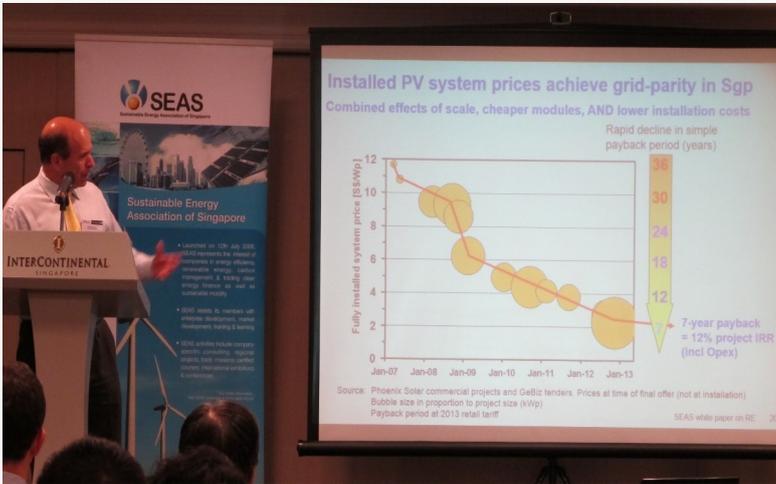

SEAS

HIGHLIGHTS OF 2013

Exclusively for members: Get SEAS' very first White Paper on Renewable Energy here

We launched our very first White Paper on the 22nd of November 2013. The White Paper shows how we can achieve 8—10 % of Singapore's 2025 estimated demand of electricity using renewable energy, and without government subsidies. **Click here for more.**

SME Energy Efficiency Initiative—how SMEs need your help to become more energy efficient
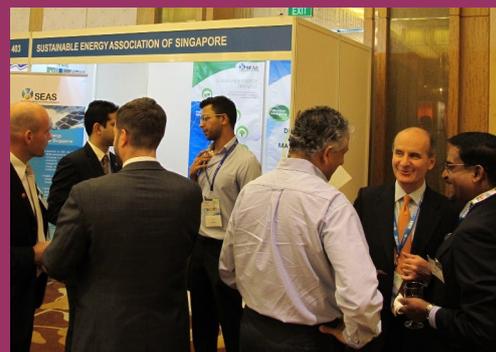

Energy efficiency is a low hanging fruit for Singapore because of our high energy consumption costs, thus the opportunity to save energy costs and become more energy efficient is great. This is explained in greater detail in **this article** "Data in Energy Efficiency". SEAS is leading the SME Energy Efficiency Initiative to help as many SMEs in Singapore as possible save energy costs by being more energy efficient. **Visit the website for more**.

SIEW 2013— Interviews with Dr Twarath Sutabutr and Mr. Jose Maria Figueres

FROM THE CHAIRMAN'S DESK

Dear all, 2013 has been an exciting year, and we hope that 2014 will bring much prosperity, joy, and health to you and your family.

Seasons Greetings!
Edwin Khew,
SEAS Chairman

Merry Christmas

BUILDING AND CONSTRUCTION AUTHORITY (BCA) CIRCULAR

From **02 January 2014**, building owners are required to comply with the minimum environmental sustainability standard (Green Mark Standard—minimum of 50 Green Mark Points) for existing buildings when replacing/installing building cooling systems, and submit periodic energy efficiency audits of cooling systems. **Full circular here. Please login to download under "Generic" tab.**
